Community Vision and Opportunities Survey

March 2021

Community input is a key part of the General Plan update process. The General Plan update process is a 20-year look into the future and allows the community of today to ensure a welcoming and prosperous city for the next generation. Input from this survey as well as other visioning efforts conducted by the City will be incorporated into a Vision and Guiding Principles document. The Vision and Guiding Principles will set the tone for the development of goals, policies, and programs in the General Plan, and serves as a guidepost for how well the City is meeting its long-term goals.

This survey is divided into the following sections:

- Economic Development
- Transportation and Mobility
- Health and the Quality of Life
- Land Use and Development
- Visioning
- About You

There is also an opportunity on the last page to write down any additional thoughts you have about the future of Livingston that were not covered in any of the survey questions. Please be as honest as you can in your responses. We will not ask for your name or contact information.

Survey Summary

- Main themes:
 - Many residents would like to see more locally-owned businesses.
 - Many residents walk outside for exercise.
 - Many residents like the small-town feel, friendly community, and diverse cultures.

Survey Summary

- Many residents would like more places for gatherings.
- Most residents were in favor of infill development.
- Residents were evenly split on whether the City should annex more land.
- Residents were evenly split on mixed-use development.

Survey Summary

- What residents love about Livingston:
 - Community
 - Heritage
 - Tradition
 - Availability of affordable housing
- What residents hope Livingston will be in 2040:
 - Attractive
 - Welcoming
 - Thriving
 - Multicultural
 - Friendly

Livingston General Plan Update Summary of Visioning Outreach

May 13, 2021

Community input is a key part of the General Plan update process. The General Plan update process is a 20-year look into the future and allows the community of today to ensure a welcoming and prosperous city for the next generation. Therefore, as part of this process, it was important to create an opportunity where the General Plan team could hear from community members about their vision for the community.

The purpose of the *Issues, Assets, and Visioning Workshop* (Workshop) was to provide an opportunity for community members to share their views on Livingston’s major assets, identify current or future land use-related issues and opportunities, and to explore potential community features and quality of life-improvements that will aid in developing a vision for the future of Livingston.

The Workshop was originally planned as an in-person open house, to be held in mid-2020. Due to safety concerns and State mandates restricting large gatherings related to the rapid spread of COVID-19, it was delayed by several months. By early 2021, the General Plan team decided to move ahead with a virtual engagement format in an effort to minimize overall delay of the General Plan Update project. On March 10th, 2021, General Plan team facilitated the Workshop virtually via Zoom, an online video conferencing platform. To compliment the virtual platform, General Plan team also prepared a *Vision and Opportunities Survey* (Survey), which the participants were asked to take at the end of the Workshop. The Survey was also available for several weeks after the Workshop.

Publicity

Information about the Workshop was shared as part of a monthly utility bill insert, on the City’s Facebook page, and through the General Plan email list. The General Plan team also asked Stakeholders, who were interviewed during an earlier phase of the project (see *Stakeholder Interview Summary*, available at <https://livingstoncity2040.com/resources/documents.html>), to reach out to their respective networks to spread the word about this Workshop.

Workshop Format

The Workshop began with a presentation that provided an overview of the purpose of the virtual workshop and the general plan process. After the presentation, the participants were separated into smaller groups where there was more opportunity for participants to speak and share their thoughts. Discussion questions were high-level and designed to warm-up and prepare participants for providing more detailed input through the Survey at the end of the Workshop. Real-time Spanish and Punjabi translation services for the small group discussion were available, however no participants indicated the need for those services.

Visioning and Guiding Principles

Vision

In 2040, Livingston is a diverse, multicultural, welcoming community with a small-town feel. Livingston's schools continue to be the best in the region. Downtown Livingston is home to many restaurants, and fun things to do and see. There are many places for friends and family to gather worry about water quality or quantity, and the city has achieved a balance between growth and lands.

Guiding Principles

1. Cultivate a Downtown Renaissance

Support and attract businesses that will restore Downtown Livingston to a vibrant destination with unique retail, entertainment, arts, and dining options, especially commercial and entertainment-focused uses, while preserving the small-town feel.

Guiding Principles

2. Balancing Growth and Agricultural Land Preservation

Support a balanced growth management strategy that protects productive agricultural lands while allowing for new economic opportunities.

Guiding Principles

3. Offer Recreation Opportunities

Maintain and expand walking and biking facilities to encourage non-automobile modes of transportation, continue to hold community-wide events and festivals, and support the development of new recreational facilities to attract regional sports tournaments.

Guiding Principles

4. Foster Economic Growth

Promote a strong local economy by supporting existing businesses and industries, while providing additional opportunities for local and regional businesses to become established in the city, especially those that create quality jobs for Livingston's resident workforce.

Guiding Principles

5. Maintain Multicultural Assets

Continue to celebrate the different communities and heritages that contribute to Livingston's diversity and continue to foster appreciation for different cultures.

The General Plan team also asked Stakeholders, who were interviewed during an earlier phase of the project (see *Stakeholder Interview Summary*, available at <https://livingstoncity2040.com/resources/documents.html>), to reach out to their respective networks to spread the word about this Workshop.

Workshop Format

The Workshop began with a presentation that provided an overview of the purpose of the virtual workshop and the general plan process. After the presentation, the participants were separated into smaller groups where there was more opportunity for participants to speak and share their thoughts. Discussion questions were high-level and designed to warm-up and prepare participants for providing more detailed input through the Survey at the end of the Workshop. Real-time Spanish and Punjabi translation services for the small group discussion were available, however no participants indicated the need for those services.

After about 15-20 minutes of small group discussion, everyone came back together, and participants were asked to answer in a short series of basic polling questions conducted through Zoom. These questions aimed to collect information on the demographics of workshop attendees and how they learned about the Workshop to determine which methods of outreach were most effective.

At the end of the Workshop, participants were invited to share their thoughts in detail through the Survey. Participants were directed to a link where they can complete the Survey, which was linked on the project website. In total, there were three opportunities for attendees to provide input and feedback. The survey was also available to community members for several weeks after the Workshop.

Accessibility

Language

The Workshop presentation was given in English; however, the accompanying slides contained all information in English, Spanish, and Punjabi. Translators for Spanish- and Punjabi-speakers were available for those who requested it.

Technology

The City offered limited in-person viewing and participation for those who would prefer to participate in-person. Hard copies of the poll questions and well as the Survey in English, Spanish, and Punjabi, were also provided to those who would prefer to share insight on paper, rather than virtually.

Summary of Findings

This section summarizes findings the polling questions, the small group discussions, and Vision and Opportunities Survey.

Polling Results

Workshop participants were asked to participate in a 10-question poll. Polling results reflect the demographics of those who attended the Workshop. There were eight participants online who participated in the polling. Answers to the polling questions were not collected from in-person attendees. Not all participants answered all the questions, so the results to some questions may not add up to eight. The following list summarizes the results from each question:

1. **Have you ever participated in a virtual workshop?**

Five attendees had attended a virtual workshop previously. Two had attended a virtual workshop once or twice before. For one attendee, this was their first virtual workshop.

2. **How do you feel about virtual workshops?**

Six attendees indicated that they missed in-person meetings. One attendee indicated that virtual meetings provide more flexibility. One attendee indicated that the technology required for virtual meetings is hard to use.

3. **How did you hear about this meeting?**

Four attendees heard about the Workshop through a City announcement. Two attendees heard about the workshop through the General Plan eblast. One attendee indicated they heard about the Workshop some other way.

4. **How old are you?**

Five attendees indicated they are 31-50 years old. One indicated they were 51-65 years old, and One indicated they are over 65.

5. **Do you live and/or work in Livingston?**

Two attendees indicated that they live and work in Livingston. Two attendees indicated they live in Livingston but work elsewhere. One indicated that they live in Livingston but are retired. One indicated that they live elsewhere but work in Livingston. One attendee indicated they neither lived nor worked in Livingston.

6. **If you live in Livingston, how long have you lived here?**

One attendee has lived in Livingston between 5 and 10 years. One attendee has lived in Livingston for more than 20 years. Two attendees do not live in the city.

7. **Do you like living in Livingston?**

Four attendees indicated that they liked living in Livingston. Three attendees indicated they do not live in the city.

8. **Where do you live?**

Two attendees live south of Highway 99 and west of Main Street, one attendee lives south of Highway 99 and east of Main Street, and one attendee lives north of Highway 99. One attendee lives in unincorporated county surrounding Livingston, and one attendee does not live in or near Livingston.

9. **Have you tried the project website?**

Four attendees have tried the project website. Three attendees have not tried the project website.

10. **Have you joined the project email list?**

Six attendees have joined the project email list. One attendee did not know about the project email list.

Small Group Discussion Summary

During the small group discussion, facilitators asked participants three questions. The following list summarizes main responses to each question. A full list of responses is attached as Appendix A.

1. **Where are your favorite places to go in Livingston?**

Answers from participants mainly included *restaurants* (Villa's Mexican Restaurant, Geneo's, Morenita's, Wolf Den, Mi Casa, Mayrita's, Las Morelianas, Los Gordos, Five Rivers), *community events* (4th of July, Sweet Potato Festival, recreational sports and events, Friday Night Lights, and *public facilities* (Veterans of Foreign Wars Hall, fire department, parks, library). *True Value Hardware Store* was also named more than once as a favorite place to go in Livingston.

2. **What is your favorite thing about Livingston?**

The most frequently mentioned favorites include the *diversity, schools, parks, the agricultural community, Highway 99, and the hometown/small-town nature of the community.*

3. **What do you wish was different about Livingston?**

Major themes in the responses to this discussion question include more *local business in downtown, less government regulations, more jobs and economic development, improved protection of agricultural lands, improved water quality and quantity, and more investment in walking and biking paths.*

Vision and Opportunities Survey

The purpose of the Vision and Opportunities Survey is to collect more in-depth opinions about specific topic areas. Input from this survey as well as other visioning efforts conducted by the City will be incorporated into a Vision and Guiding Principles document, which sets the tone for the development of goals, policies, and programs in the General Plan, and serves as a guidepost for how well the City is meeting its long-term goals. The Survey did not ask for participants' name or contact information. The following list summarizes key takeaways, organized by the major themes of the survey. An analysis of all responses exported from SurveyMonkey (the online platform used to host the Survey), as well as the one hard-copy submission is available in Appendix B.

1. **Economic Development**

Respondents were generally more in favor of having an ACE Train Station in Downtown Livingston. Of the different types of businesses Livingston could have in the Downtown area, respondents would most like to see locally owned businesses, restaurants, and boutiques; chain and big box stores had some support, but not as much. Other types of businesses suggested by residents include entertainment venues (e.g., bars, bowling), a gym, and better landscaping. One respondent suggested introducing residential mixed-use to the Downtown area.

2. **Transportation and Mobility**

Many respondents indicated that traffic congestion is somewhat of a problem, but there was not overwhelming agreement that it is a very bad problem yet. About one-third of respondents felt that it is very easy to walk from place to place in Livingston, and only one person felt it was very hard. Respondents skewed toward considering truck parking as a serious problem; however, many respondents also did not have an opinion on the issue. Most respondents walked around for exercise, to go to school, to go to the park, or to go to a friend's house. A handful of respondents also walked to the grocery store and pharmacy.

3. **Health and the Quality of Life**

What respondents like most about Livingston, by far, is the small-town feel, friendly community, and diverse cultures. Many respondents also like the schools and housing costs in Livingston. On the other hand, respondents felt that Livingston needs more places for people to gather, including restaurants and cafes, a plaza, dog parks, and fun places with activities. Some respondents also noted the need for bike trails, safe places to walk, sports fields, parks, grocery stores, doctors' offices, agriculture, a community education facility, and more stores. Overall, respondents felt that all City services were just average. The Fire Department was most positively rated by respondents, and water/sewer service was most negatively rated by respondents.

4. **Land Use and Development**

Respondents were pretty evenly split on their opinions of whether Livingston should expand and annex more land, although just one more person was in favor of expansion/annexation compared to the number of respondents against it. Overwhelmingly, respondents feel that Livingston should encourage infill development. Again, respondents were pretty evenly split on their opinions about mixing retail and commercial uses with residential uses (mixed-use), although just one more person was in favor of encouraging mixed-use development compared to the number of respondents against it.

5. **Visioning**

Most respondents love Livingston because they are close to friends and family. Many others also

love Livingston because they feel secure, they are part of a community, they feel a sense of community, heritage, and tradition, and the availability of affordable housing. However, two respondents specifically wrote in that they do not love Livingston, one of which explained it was because they needed to travel outside the city for the services they needed. Most respondents indicated that, in 2040, they hope Livingston is safe and family oriented. Many respondents indicated that they would hope that Livingston is also attractive, welcoming, thriving, multicultural, and friendly. Some participants wrote in that they hope Livingston will have more fun activities to do, and is healthier, dog-friendly, honest, has integrity, fosters wholesome family life, and is fiscally strong.

6. **About You**

Almost half of the respondents heard about the survey through a City announcement, including as a utility bill insert. Many also heard about it through Facebook and through friends. Respondents were represented in all the areas of the city, in addition to some representation for the unincorporated areas just outside the city, although there was slightly more representation from the area south of Highway 99 and west of Main Street. Over half of the respondents are between the ages of 31 and 50, and all age ranges were represented in the survey. Of note, one respondent is under 18. Of all the options for work, the agriculture, food, and natural resources industry represent the most survey participants. Education and training; health science/healthcare; and government and public administration also represent many survey participants. Additionally, a handful of respondents are retired. Finally, nearly three-quarters of respondents have not signed up for the General Plan email list.

At the end of the Survey, there was also an opportunity for participants to write down any additional thoughts they may have about the future of Livingston that were not covered in any of the Survey questions. Over 30 respondents submitted a written response at the end. Major themes of these submissions include the following:

- Livingston needs more variety of entertainment venues, food and restaurant options, and places to gather.
- Livingston should maintain its small-town feel and preserve surrounding agricultural lands.
- Livingston should increase development and build more housing.
- Livingston needs more clean water.
- Livingston should consider traffic and safety issues as the city grows.

Please see Appendix B to read individual written submissions.

| 3 | Thriving Youth Sports and new businesses must be a priority. | 4/14/2021 9:53 AM |
| 4 | New housing developments should have parks built by the builder if they want to come to Livingston. | 4/14/2021 9:52 AM |
| 5 | I would like to see better enforcement of land-use policies in the City. It does no good, if we have a General Plan and Zoning Ordinance where there is no or little enforcement of existing City policies. We also need full-time City Planners and a Community Development Director. If they City leadership and residents want to grow, we should have the staff in house to process applications. Additionally, our zoning ordinance should be updated and land-use laws should be applied. Our Downtown looks blighted in certain areas because we do not encourage property owners to upkeep their properties. Also, we should not have any metal buildings in the Downtown, nor large gyms that are incompatible with the surrounding residential uses. We also need more community input and involvement, many our our residents are Spanish-speakers and/or of Indian descent, so paper surveys should also be provided for community input and involvement and participation. | 4/14/2021 9:39 AM |

The kids could use something like a Roller skating place or some kind of community center they can go to to keep them involved in something positive to keep them out of trouble. | 4/9/2021 6:37 PM |

| 13 | In the ambition of the city to have the city grow there has been a significant increase in crime. It is unfortunate for those of us that have lived in Livingston our entire lives and now live in fear. The community also has diversified which has been amazing and is an absolute positive for Livingston. There needs to be a balance of growth and safety so that those of us that live here can benefit from the growth and the diversity that can come with it. Growing to fast without thought of traffic and only having two exits and entries to a growing city is absurd. It makes no sense to encounter the problem and then address it. Traffic and safety should be taken into consideration to be able to support the community. Trying to stand out and impress other towns or competition with surrounding towns makes no sense if it is of no be fit to the people living here. For example the turn about has brought no benefit was costly and is now not efficient. It looks okay but looks are not everything. Thank you for your time | 4/6/2021 8:32 PM |

| 24 | As a teen and student at LHS, I think our town certainly needs more places for students to gather and hang out aside from food joints. I had a teacher say once, "What's there to do in Livingston? Go to Geno's?" and this statement has stuck with me. People leave Livingston to go to Turlock, Atwater, or Merced for other activities. There are movie theaters and bowling alleys that people go to that we don't have. All that Livingston has are places like the Wolf Den and Geno's. While I think that the Wolf Den is a great addition the the community, there needs to be more variety. | 3/31/2021 12:42 PM |
| 25 | I have been in the City of Livingston for seventy-five years. My family grew up here and I am totally happy with my live as a Senior Citizen. Doesn't mean chance is a good thing. To a point. | 3/31/2021 12:33 PM |
| 26 | I would really for the town to develop a small organic/whole foods store and also more places for treats like yogurt shops, ice cream shops... | 3/29/2021 12:17 PM |
| 27 | Why is not any swings at any of the new parks.. half of the stuff at the park kids don't even play with.. | 3/29/2021 11:32 AM |
| 28 | I like the small town feel of the city, but I know we will grow eventually. It already has grown a lot in the past few years. I would really like for the city to start addressing homeless issues sooner rather than later before our city grows more and we face a homeless issue like what Merced and Turlock are facing...even Atwater. We can only enjoy the parks, walking trails and eventually biking trails if we feel safe taking out families there. What's the point of having all these things if we can't enjoy them or feel safe? | 3/29/2021 9:27 AM |
| 29 | Water- I'm sure there is concern for the brown stuff that comes out of the facet. I know there is an update that comes out every so often. It states the water is safe but I disagree knowing that there is brown colored water that comes out of my faucets. | 3/23/2021 6:34 PM |

| 32 | Livingston should keep it's small town feel. People live in a small knit community and there is no reason to annex any more AG land to expand more housing. | 3/10/2021 7:38 PM |

Community Vision and Opportunities Survey

March 2021

Community input is a key part of the General Plan update process. The General Plan update process is a 20-year look into the future and allows the community of today to ensure a welcoming and prosperous city for the next generation. Input from this survey as well as other visioning efforts conducted by the City will be incorporated into a Vision and Guiding Principles document. The Vision and Guiding Principles will set the tone for the development of goals, policies, and programs in the General Plan, and serves as a guidepost for how well the City is meeting its long-term goals.

This survey is divided into the following sections:

- Economic Development
- Transportation and Mobility
- Health and the Quality of Life
- Land Use and Development
- Visioning
- About You

There is also an opportunity on the last page to write down any additional thoughts you have about the future of Livingston that were not covered in any of the survey questions. Please be as honest as you can in your responses. We will not ask for your name or contact information.

When you have completed the survey, please return (in-person or via mail or email) the survey to:

Water

We do not have enough water now.

There are water issues, (arsenic^{etc}), wells going dry or offline.

We do not have water to add more people.

In fact, I thought the City of Livingston was told by one of its consultants, ~~the~~ "not to grow because of the water."

Protect Agriculture Land! 3 of 11

Agriculture is a thriving business. It is difficult to farm with houses near/next to agriculture land. The Livingston General Plan needs to respect & protect existing agriculture land.

Protect Williamson Act Land

City of Livingston needs ^{4 of 11}

City of Livingston needs to
be financially strong before it
looks to grow.

The 42" sewer trunk line has not been CEQA.

It is illegal.

It is too big for a city the size of Livingston.

We don't have the water to make it work.

It will have a negative impact on Williamson Act land & Land in a permanent agriculture easement.

South City of Livingston

Respect the Merced River ^{5 of 11}

Not too long ago the City of Livingston proposed a development project that would have allowed a gas station next to (like on the ^(banks) banks of the Merced River).

are roads going to ^(be) expanded?

Will the expansion of roads impact people's yards?

Are people's property going to be rezoned?

Tell the whole truth.

Traffic

10 of 11

Traffic is impacted in some areas. Winton Parkway/^{Hwy.}99 B street/Robin is dangerous at certain times of the day because of the traffic.

My friend on Peach Ave can not get out of his driveway for 15 minutes ~~when~~ in the morning due to the high volume of cars going to the high school.

City of Livingston General Plan ^{11 of 11}
must have an agriculture zoning

VISION AND GUIDING PRINCIPLES

May 2021

Vision Statement

In 2040, Livingston is a diverse, multicultural, welcoming community with a small-town feel. Livingston's schools continue to be the best in the region. Downtown Livingston is home to many local businesses, trendy restaurants, and fun things to do and see. There are many places for friends and family to gather in Livingston. Residents do not worry about water quality or quantity, and the city has achieved a balance between growth and preservation of agricultural lands.

Guiding Principles

1. Cultivate a Downtown Renaissance. Support and attract businesses that will restore Downtown Livingston to a vibrant destination with unique retail, entertainment, arts, and dining options, especially commercial and entertainment-focused uses, while preserving the small-town feel.

2. Balancing Growth and Agricultural Land Preservation. Support a balanced growth management strategy that protects productive agricultural lands while allowing for new economic opportunities.

3. Offer Recreation Opportunities. Maintain and expand walking and biking facilities to encourage non-automobile modes of transportation, continue to hold community-wide events and festivals, and support the development of new recreational facilities to attract regional sports tournaments.

4. Foster Economic Growth. Promote a strong local economy by supporting existing businesses and industries, while providing additional opportunities for local and regional businesses to become established in the city, especially those that create quality jobs for Livingston's resident workforce.

5. Maintain Multicultural Assets. Continue to celebrate the different communities and heritages that contribute to Livingston's diversity and continue to foster appreciation for different cultures.
